**KARPATEN MEAT GROUP**

[www.karpaten-meat.com](http://www.karpaten-meat.com)

# Introducere

Karpaten Meat Group își desfășoară activitatea în inima Transilvaniei, în județul Sibiu, unde condițiile naturale – pășunile întinse, biodiversitatea și climatul favorabil – oferă un cadru ideal pentru creșterea bovinelor de carne. Fondată în 2008, compania a fost construită pe o viziune clară: dezvoltarea unui sistem modern și sustenabil de producție Angus în România.

De-a lungul anilor, **Karpaten Meat Group** a investit constant în genetică de elită, importând și utilizând linii valoroase Aberdeen Angus din unele dintre cele mai performante programe de ameliorare din Europa, America de Nord și Australia. Această bază genetică internațională permite dezvoltarea unor animale cu performanțe ridicate în ceea ce privește fertilitatea, capacitatea maternă, viteza de creștere și calitatea carcasei.

Cei **100 de tauri prezentați** în acest catalog sunt rezultatul acestui program de selecție și reflectă combinația dintre genetică internațională de top și condițiile naturale ale fermelor din Transilvania.
